INDEX

"Agent" in ESP, 200-202
  agents in opposition, 250
  location of, 11-12, 19
  split agents, 250, 265
Air vibrations in Forwald experiment as counterhypothesis to PK, 41-42, 223
Amateurs in parapsychology, 5, 8, 244
American Indians as subjects, 254
American Philosophical Association, meeting of, 240
American Psychological Association, poll of, 175
Animals, psi ability of, 67; *see also* Homing; Trailing
Annoyance ratings of ESP subjects, 137-52, 142-46, 148-50; *see also* Frustration
Apparitions, 97; *see also* Hallucinations; Hauntings
  collective, 58, 200-201
  crisis, 59
  Johnson's theory of, 57-59
  Myers' and Gurney's theories of, 200
  photographing of, 58
  telepathic, 200-202
  Tyrrell's theory of, 57-58, 199-203
Apparitions (Tyrrell), review of, 199-203
Association theory of Carington, 204
Astral projection, 59-60
Attitude toward psi; *see also* Annoyance ratings; Motivation; Sheep-Goat classification
  of investigator, 97, 118-19, 253
  of philosophers, 240
  of psychologists, 175
  of scientists, 129, 175, 184
  of subject, 19, 83, 97, 137, 139, 151, 238
Austin, Mrs. V. M., token-object experiment with, 22
Awareness of success, 249

Barrett, W. F., 204
Bateman, F., 11, 41
  review of his *Modern Experiments in Telepathy*, 245-58
Bates, E. K., Jr., report of further Marchesi experiments (with McMahan), 82-92
Besterman, T., 95
Birge, W. R., 22
Blundun, J., 25-26
Boredom, effect of, on subject, 151, 188
Brain waves of ESP subjects, 22-23
Broad, C. D., 96
Brown, G. S., discussion of his criticisms of ESP statistics by West, 28-29; by Soal and Bateman, 255
Brugmans, H. J. F., 252
Burlingame, D. T., 126

Cadoret, R., 174
Carington, W., 24, 96, 130, 203-4, 252, 256, 269
Carpenter, C. R., 253
Causation, 93, 132, 190-91, 193, 198; *see also* Precognition
  Johnson's theory of, 54-56
Change-of-call, 173
Chari, C. T. K., 96
Clairvoyance, 43, 57, 132, 186, 190, 202-3, 250
Clairvoyants, need of, 63-64
Clock card tests by Mitchell and Fisk, 153-64
Coin-spinning tests by Thouless, 23
Collusion as a counterhypothesis to psi, 167, 174
Colors as ESP targets, 141, 250
Competition in psi tests, 188
Conditions affecting the operation of psi, 9, 91, 151, 188; *see also* Attitude; Competition; Dual-aspect tests; Drugs; Knowledge of results; Length of run; Motivation; Tempo
Congruence, the method of, in studying ESP data, 260-61
Consistent missing, 174
Control series in Mangan PK experiment, 216-17
Control tests, validity of, discussed, 28-29
Conviction on part of the subject
  in ESP test, 89-90
  in spontaneous experiences, 106-10, 112-17, 120
Cook, Florence, 204
Coover, J. E., 28
Cormack, G., 235
Counterhypotheses to psi, 43, 72-73, 96, 126-27, 167; *see also* Air vibrations; Collusion; Defective randomization of targets; Dice bias; ESP plus PK by experimenter; Faulty apparatus; Faulty shuffling; Lost records; Personal bias; Physical radiation; Recording errors; Sensory cues; Statistical artifact; Unconscious whispering
Cox, W. E., his experiment comparing spheres and cubes in placement tests, 234-39

DALTON, G. F., 122
Decline in scoring, 186, 195, 214-15, 247, 249
  chronological, 12, 32-46, 213
  in session, 25
  in set, 227
  in subseries, 32-35
Delayed checking, 83-84
DEUTSCH, HELENE, 126
DEVEREUX, G., 259
  review of his *Psychoanalysis and the Occult*, 125-30
Dice
  bias of, as a counterhypothesis to psi, 23, 215
  effect of differences in size, weight, and material of, 238
Dice experiments
  in England, 23-26
  report on differential scoring of PK results (Mitchell and Fisk), 162-64
  report on experiment with 30 dice released for high- and low-face targets (Mangan), 209-18
Die-orientation differential method, *see* Differential scoring technique
Differential scoring technique
  applied to clock card data, 153-64
  applied to PK data, 153, 162-64
  compared with direct-hit method, 153-54, 156-58, 160-61, 164
Dispersion of scores, 12-13
Displacement, 14-15, 96, 173, 178-80, 187, 247-48, 256-57
Distance as related to psi, 29, 195, 201, 249-50
  Fisk distance tests of PK, 25, 162-64
  Marchesi long-distance tests, 82-92
  Pearce-Pratt ESP series, 165-77
  Soal's distance tests with Mrs. Stewart, 11-12
Distribution of scores: *see also* Position Effects
  chronological, 176, 209, 213
  horizontal on the page, 87
  vertical in the column, 209, 213-15, 249
  vertical in the five trials of segment, 87-88
  vertical in the run, 87
  vertical in the segments of run, 87-88
  vertical in the set, 227
Divergence scoring system, 16, 26
Dowsing, 5
Drawings tests of ESP, 10, 96
Dreams involving ESP, 94-95, 97-98, 102-20, 259
  compared with waking experiences, 102-3, 105, 109-21
  contemporaneous, 105-6, 109-20
  precognitive, 105-6, 109-20
  realistic, 104-5, 109, 111-12, 114, 117-19, 121
  telepathic, 262-65, 270
  unrealistic, 104-6, 109, 113, 117-19
Drugs, effect of, on psi, 12, 188
Dual-aspect tests, effect of, on scoring, 234
Dualism, 44-45, 240
DUCASSE, C., 198
DUNNE's theory of time, 94-95, 130

Extrasensory perception, *see also* Clairvoyance; Precognition; Spontaneous cases; Telepathy
  combined with PK on part of experimenter, as counterhypothesis to psi in the subject, 85, 88-89
  as related to PK, 192, 195
  report on ESP experiment with clock cards (Mitchell and Fisk), 153-65
  report on ESP experiment with Marchesi as subject (McMahan and Bates), 82-92
  report on experiment using picture-frustration ratings and ESP scores for subjects who were moderately annoyed at ESP task (Schmeidler), 137-52
  report on Pearce-Pratt distance experiment (Rhine and Pratt), 165-77
Extrasensory Perception After Sixty Years, 165, 245
EHRENWALD, J., 19
  his review of *Psychoanalysis and the Occult* (Devereux), 125-30
  review of his *New Dimensions of Deep Analysis*, 258-71
EISENBUD, J., 127-28
Elkisch criteria in judging drawings, 18
ELLIOTT, RITA, as agent, 248
ELLIS, A., 127-28
ESP; *see* Extrasensory perception
ESP cards, location of, in tests, 11
EVA, C., the case of, 204-5
EVANS, C. C., experiment involving medium's brain waves, 22-23
Expansion-compression ratings, 18
Experiment with Time (An), 94, 130
Experimental results, Thouless' note on the reporting of, 124
Experimenter in psi tests
  comparison of two experimenters, 153, 158-60
  differences in, 17
  possible influence of, on subject's scoring, 15, 32, 35-36, 85, 88-89, 256-57
Exploratory stage of research
  compared with verification stage, 69-73, 78, 80, 98, 132, 184, 186, 242-43
  need of reporting, 243-44
Extrapunitiveness as related to ESP scores; *see* Rosenzweig Picture Frustration Study

Faulty apparatus as counterhypothesis to psi, 226
First International Congress of Parapsychological Studies, 258
FISK, G. W., 29-30, 203, 256-57
  experiments reviewed by West, 13-17, 25-26
  report on clock cards and differential scoring techniques (with Mitchell), 153-64
FLEW, A., review of his *New Approach to Psychical Research*, 130-32
FODOR, N., 127-28
Foreknowledge, 95
FORWALD, H., 238
  letter on possibility of air currents affecting placement tests, 41-42
  report on decline effects in PK placement tests, 32-36
  report on instrumental investigation of PK, 219-33
FOSTER, A. A., 254-55
FOSTER, ESTHER B., 209
Free will, problem of, 94
FREUD, S., attitude of, toward psychical research, 125-26, 129-30, 258
Frustration, effect of, on ESP scores, 137-38, 140; *see also* Motivation

GARRETT, MRS. EILEEN, 22
GAY, MRS. K., 22
GILLESPIE, W. H., 128
GOLDNEY, MRS. K. M., 178, 180, 187, 247
GREENWOOD, J. A., 172
GREVILLE, T. N. E.
  method of obtaining variance in multiple-calling, 36-40
  reappraisal of mathematical evaluation of reinforcement effect, 178-83
Group tests of ESP, 10, 36, 72, 139-52, 253-56
Grouping of hits, 173
GURNEY, E., 199-201

HALES, MRS. YVONNE, 11
Hallucinations, 104-5, 113, 117, 119; *see also* Apparitions
  retrocognitive, 56-57
HARDY, A. C., 204
HART, H., letter discussing editorial, 197-98
Haunting, 56-57, 77, 203
HETTINGER, J., discussion of his token object tests, 20-22
HEYMANS, G., 252
High dice and low dice in PK tests, 24, 26, 209-18
HINDSON, M. T., 10, 20
HITSCHMANN, E., 126
HOLDING, MRS. M., 11
HOLLÓS, I., 126-28
HOME, D. D., 204
Homing behavior
  in cats, 43
  in pigeons, 43
Human Personality and Its Survival of Bodily Death, 199
HUMPHREY, BETTY M., 18, 254
HYDE, D., 23
Hypnosis, 23, 80

Imprisoned Splendour, The, (Johnson), review of, 51-65
Impunitiveness as related to ESP scores; *see* Rosenzweig Picture Frustration Study
Incline in scoring, 32, 35, 213-15
Inhibitions of subject, control of, 8
Internal consistency of experimental results, 124
Intropunitiveness as related to ESP scores; *see* Rosenzweig Picture Frustration Study
Intuitive psi experiences, 103-5, 113, 117, 119

JOHNSON, R. C., review of his *The Imprisoned Splendour*, 51-65
Journal of Abnormal and Social Psychology, 165
Journal of the Society for Psychical Research, 153

KAHN, S. D., 144
KING, KATIE, 204
Knowledge of results, effect of, on subject's scoring, 32-33, 35
KNOWLES, E. A. G., 24
KNOWLES, F., 271
KRUISINGA, J. C. M., 122

LARSSON, T., 33
Lead screening, effect of, on scoring, 249
Length of run, effect of, 141
LODGE, O., 94
London, University of, 247
Lost records as counterhypothesis to psi, 167
LYTTELTON, E., 94-95

MCCONNELL, R. A., 131-32
MCDOUGALL, W., 166-67
MCMAHAN, ELIZABETH A., 18
  report of further Marchesi experiments (with Bates), 82-92
MAETERLINCK, M., 94
MANGAN, G. L., 209-18
MARCHESI, C., tested by Bates and McMahan, 82-92
MARSH, M. C., his review of *Tests for Extrasensory Perception* (West), 64-65
Mass in relation to psi, 193, 195

Materialism as opposed to parapsychology, 48, 189-91, 194
Materializations, 61-63
"Meaningful relationships," method of, in studying psi data, 260
Mediums, tests with, 19-22, 76
Mediumistic material, evaluation of, 19-22, 203
Mediumship, 130
Mental patients as ESP subjects, 18-19, 254-55, 269
Methods of evaluating scientific data, discussed, 69-81, 259-64; *see also* Congruence; Meaningful relationships; Qualitative research; Quantitative research; Statistical approach
MITCHELL, A. M. J., 13, 16
clock card tests (with Fisk), 153-64
PK tests (with Fisk), 26
Modern Experiments in Telepathy (Soal and Bateman), review of, 245-58
Motivation of subject, 91, 151, 176-77, 186, 188, 190, 238, 254; *see also* Annoyance ratings; Boredom; Frustration
MULDOON, S., 59
Multiply-determined targets, 249
MUNDLE, C. W. K., 54, 96
MURPHY, G., his review of *New Dimensions of Deep Analysis* (Ehrenwald), 258-71
MYERS, F. W. H., 94, 125, 199-201

Negative scoring, 174, 234, 236-38; *see also* Psi-Missing
New Dimensions of Deep Analysis (Ehrenwald), review of, 258-71
New World of the Mind (Rhine), 198
review of, 43-51
NICOL, F. N., 24, 161
tests with Osborn, 12-13
NIELSEN, MRS. WINNIFRED, 216

Optional-stopping, 251, 253, 255
OSBORN, E., 12-13, 199
experiment involving Mrs. Garrett's brain waves, 22-23
tests with Nicol, 12-13
OSIS, K., 43, 203

Paramecia as PK test material, 27-29
Parapsychology
in Britain, 10-31
and communism, 50
complacency in, 1-2, 8
complexity of, 4-8
controversy over, 1-2
current difficulties in, 1-9
and ethics, 49-50
and mental illness, 46
need for discussion in, 4, 197
need of emphasizing research in, 6-7
as opposed to materialism, 48, 189-91, 194
philosophical discussions of, 240
as related to physics, 191, 194
practical implications of, 46
and psychoanalysis, 125-30
public interest in, 5-7, 9
and religion, 46-49
research methods in, 69-81
"schools" of thought in, 2-3, 8, 197
standards of evidence in, 2, 198, 242, 251
Parapsychology Bulletin, 243
Parapsychology Laboratory, 97, 110, 172, 203, 209
PARSONS, D., 23-24, 256-57
PATTERSON, R. L., his review of *A New Approach to Psychical Research* (Flew), 130-32
PAYNE, P., 64
PEARCE, H. E., JR., 166
Pearce-Pratt experiment, 43, 73, 79
review of, 165-77
PEDERSON-KRAG, GERALDINE, 127-28
Percipient, role of, in telepathy, 200-202
Personal bias in classifying cases as counterhypothesis to psi, 116-20
Personality as related to psi, 2, 18, 188, 198-200, 249, 267, 270
PHALEN, H. R., 253
Phantasms of the Living, 94, 199
Physical radiation as counterhypothesis to psi, 255-56
Physical world as related to psi, 191, 194, 198; *see also* Materialism
Picture-frustration ratings of ESP subjects, 137-52
PK; *see* Psychokinesis
Placement experiments
air vibrations in, discussed by Forwald, 41-42
report on an approach to an instrumental investigation of PK (Forwald), 219-33
report on chronological decline in a PK placement experiment (Forwald), 32-36
report on comparison of spheres and cubes in PK placement tests (Cox), 234-39
suggestions for, by Wilbur, 196
PODMORE, F., 199-200
Poltergeist, 62, 77, 203-4
Position effects; *see* Decline in scoring; Distribution of scores; Incline in scoring; Salience; U-Curve
PRATT, J. G., 22, 178, 235, 252
review of Pearce-Pratt Series (with Rhine), 165-77
on variance for multiple-calling ESP data, 37-40
Pratt-Woodruff Series, 252-53

Precognition, 43, 54-55, 57, 82-90, 132, 186, 190-92, 250, 256; *see also* Causation
frequency of, in spontaneous cases, 93-123
theories of, 93-99, 126, 176
PRICE, H. H., 96, 199, 201
his review of *The Imprisoned Splendour* (Johnson), 51-65
Primary and secondary targets in PK tests, compared, 235-37, 239
Probability
comments of Spencer Brown on, 28, 255
effect of variations in, 249
Proceedings of Society for Psychical Research, 94, 257
Psi; *see also* Extrasensory perception; Psychokinesis
internal consistency of evidence for, 190
need for discovering how to produce, 7-8, 80, 177, 189, 244
rational acceptability of, 81, 184-94
as related to physical world, 168, 189-94, 198; *see also* Space, time, mass relations of psi
unconsciousness of, 2, 86-87, 189-90, 192, 203
universality of, 185
Psi-missing, 179, 181, 187-88, 238; *see also* Negative scoring
"Psychic aether," Johnson's theory of, 55-63
Psychic energy hypothesis, 191-94
Psychic healing, 271

Targets
  defective randomization of, as counterhypothesis to psi, 28-29
  face frequencies of, in dice tests, 24-26
  face preferences among, in dice tests, 215-17
  location of, in ESP tests, 11
  multiply-determined, 249
  primary and secondary, compared, 235-37, 239
  repetitive, 249
  shape of, 238
Telepathy, 5, 10, 17, 21, 43, 54, 74, 132, 190
  apparitions of telepathic type, 200-202
  between patient and psychiatrist, 266-67
  in evolution, 204, 265
  in interpersonal relations, 258-71
  psychoanalysts' theories of, 126-29, 265-66, 268-69
  "pure" telepathy, 256
  review of *Modern Experiments in Telepathy* (Soal and Bateman), 245-57
  review of *New Dimensions of Deep Analysis, A Study of Telepathy in Interpersonal Relationships* (Ehrenwald), 250-54
  shortage of telepathic material, 259
  theories of Myers, Gurney, and Tyrrell compared, 200-203
Telepathy and Medical Psychology, 258
Tests for Extrasensory Perception (West), review of, 64-65
Thirty Years of Psychical Research, 205
THOULESS, R. H., 23-24, 54, 130
  dice experiments, 24-25
  note on the reporting of experimental results, 124
  review of *New World of the Mind* (Rhine), 43-51
  review of *Psychical Research Today* (West), 203-5
Tijdschrift voor Parapsychologie, 122
Time relations of psi, 94-96, 114, 176, 186, 190, 193, 198; *see also* Causation; Precognition
Token-object tests, 19-22, 55-57, 61-62, 77
  precognitive, 22
"Tracer effect" in ESP data, 260-61, 264
Trailing behavior, 43
TYRRELL, G. N. M., 22, 54, 130, 203
  review of his *Apparitions*, 199-203
  theory of apparitions, 57

U-curve in experimental data, 215
Unconscious, Tyrrell's theory of, 200, 203

Unconscious nature of psi, 2, 186-87, 189-90, 192, 203
Utrecht Conference, 258
URBAN, H., 18

Variance for multiple-calling ESP data, 37-40
VASSE, MME. P., 26
Verification stage of research compared with exploratory, 69-73, 78, 80-81, 184, 186, 242-43

Walker-Greville method of evaluating reinforcement, 178-79, 181-83
WALKER, R., on "Parapsychology and Dualism"
WALLWORK, S. C., work of, on brain waves of ESP subjects, 23
WARNER, L., 175
Weather conditions, effect of, on psi, 88
WEINBERG, A. A., 252
WEST, D. J., 97, 256
  drug experiment, 12
  expansion-compression experiments, 18
  experiments with Fisk, 17, 158-60, 162-63
  experiment with mental patients, 19
  experiment using token objects, 19-20
  review of his *Psychical Research Today*, 203-5
  review of his *Tests for Extrasensory Perception*, 64-65
  report on parapsychology in Britain, 10-31
Whispering as a counterhypothesis for psi, 255
WEISNER, B. P., 45, 54, 130
WILBUR, L. C., letter on physical forces affecting PK and suggestions for test, 195-96
WITTGENSTEIN, L., 131
